LEARN MORE

ABOUT US

Eagle TG has experience in delivering authoritative IT solutions in Enterprise Architecture design/implementation and business systems modeling for a diverse client base, especially in the federal sector. Our domain mastery lies in architecting comprehensive frameworks that align with organizational objectives and compliance standards. Leveraging state-of-the-art business process modeling, we optimize operations to enhance efficiency and efficacy. Through model-based systems engineering, we expedite the design and integration of systems within complex enterprise architectures. Our strategic focus on data management and analytics empowers decision-making and operational insights. We prioritize systems integration and optimization to ensure new systems integrate smoothly with existing architectures while enhancing performance. Additionally, our Cybersecurity and Risk Management strategies robustly protect data and systems against evolving threats, maintaining the integrity and security of enterprise architectures.

PAST PERFORMANCE

Project: **Enterprise Architecture, Data, and Engineering (EADE) USTRANSCOM/ARTRANS/AMC Enterprise Architecture**
Customer: US Transportation Command (USTRANSCOM)
Date: 04/2020 – 09/2022
Contract Value: $5.55M
Description: Eagle TG significantly contributed to the enhancement of Enterprise Architectures (EA) under the EADE IDIQ contract, employing SysML and Model-Based Systems Engineering (MBSE) methodologies to elevate our business process modeling and adherence to DoD Architecture Framework (DoDAF) standards. Our role was crucial in developing, analyzing, and integrating enterprise, functional, and system/solution architectures, ensuring alignment with overarching IT/Portfolio strategies and operational decision-making. Leveraging SysML and MBSE enabled us to conceptualize complex systems and processes in a cohesive and comprehensive manner, facilitating the creation of integrated EAs that interconnect with other architectures seamlessly.

Project: **EADE Consolidated Architecture Tool Suite (CATS)**
Customer: US Transportation Command (USTRANSCOM)
Date: 04/2020 – 09/2022
Contract Value: $3.5M
Description: CATS supports the development and maintenance of the DoDAF for both enterprise and system architectures under the EADE IDIQ. Eagle TG was instrumental in providing software development, systems administration, and comprehensive support across Tier 1-3. CATS is key to facilitating data-centric portfolio management and the development of new architectures tailored for software development. Additionally, it offered comprehensive overview of the enterprise landscape for portfolio managers.

Project: **EADE AFMC Engineering**
Customer: US Air Force Mobility Command (AFMC)
Date: 04/2020 – 09/2022
Contract Value: $1.74M
Description: Eagle TG accelerated the engineering and design of innovative system solutions through model-based systems engineering. Utilizing advanced system modeling and leveraging existing business process artifacts, we researched, documented, and analyzed enterprise engineering specifications to enable impact analysis at multiple levels: enterprise-wide, systems of systems, and individual components. This strategy ensured rapid development of cutting-edge solutions and their impact assessments to ensure technical soundness and strategic alignment with enterprise objectives. Our evaluations guaranteed efficient/effective tailored system solutions to meet the specific needs of the enterprise.

EAGLE TECHNOLOGY GROUP

UEI: MBZ8E2DEZTM9 CAGE : 6R8B4

Eagle TG is a tribally owned Small Disadvantaged Business (SDB) that excels in providing information technology and management consulting services. Dedicated to developing, deploying, and maintaining solutions that are secure, reliable, sustainable, and cost-effective, the company boasts a team experienced in supporting diverse programs for both federal agencies and private commercial enterprises, ensuring high quality, efficient services tailored to meet the unique needs of each client.

WHY TRIBAL?

Contracting with a Small Business Administration (SBA) recognized tribally owned SDB offers unique advantages to federal customers. By choosing to do business with us, agencies benefit from flexible and rapid procurement processes due to special federal contracting provisions that enable a more efficient path to high-quality, cost-effective solutions, while also fostering economic growth within historically underserved communities.

CONTRACT VEHICLES

GSA MAS

CONTRACT NO. GS35F418CA

Special Item Numbers (SINs):

54151S	Information Technology Professional Services
518210C	Cloud Computing and Cloud Related IT Professional Services
54151HEAL	Health IT Services
541519ICAM	Identity, Credentialing and Access Management (ICAM)
OLM	Order-Level Materials (OLMs)

✓ Multiple Award Schedule (MAS) is a Best-in-Class contract designated by the Office of Management and Budget as a preferred governmentwide solution.

✓ Contract types include fixed price (**FAR 16.2**), labor-hour (**FAR 16.601**), and time-and-material (**FAR 16.602**) terms.

✓ Offers blanket purchase agreements (BPA) to meet your strategic sourcing, compliance requirements, and socio-economic goals.

✓ Eligible federal, state, local, and tribal governments can issue an RFI or RFQ to vendors. Set aside requirements for one or more socio-economic categories including but not limited to small businesses and Native American Owned businesses.

✓ Enables federal clients to earn SDB credit.

Seaport Next Generation

CONTRACT NO. N0017825D7295

✓ SeaPort NxG is the Department of the Navy's mandatory contract vehicle for acquiring professional support services across NAVSEA, NAVAIR, NAVWAR, NAVFAC, NAVSUP, ONR, MSC, and the U.S. Marine Corps. .

✓ Multiple Award Indefinite Delivery/Indefinite Quantity (IDIQ) contract providing streamlined access to program management and engineering support services

✓ Supports a broad range of mission requirements, including engineering, systems engineering, software development, cybersecurity, logistics, program management, and IT services.

✓ Flexible task order types include Firm Fixed Price (FFP), Time & Materials (T&M), and Cost Plus Fixed Fee (CPFF).

✓ Five-year ordering period with an additional five-year option, enabling long-term mission support and planning.

✓ Task order performance may extend up to five years beyond the contract ordering period, supporting continuity of operations.

✓ Available to Department of the Navy organizations worldwide, enabling rapid access to qualified contractors and mission-ready solutions.

✓ Zero-percent agency fee maximizes government value and reduces total acquisition costs.
