LEARN MORE

ABOUT US

Eagle TG prides itself on engineering advanced IT solutions for federal, state, and commercial entities. Our portfolio is centered around the conception, implementation, and governance of secure, high-efficacy IT frameworks, meticulously customized to client specifications. Our prowess in software engineering ensures seamless integration and operational excellence, complemented by our adeptness in systems integration and management to enhance system throughput. Our cloud infrastructure services are robust, designed for scalable and secure data handling. With a stringent cybersecurity protocol, we safeguard critical data against evolving threats. Our database management and tiered support services underscore our commitment to fostering data integrity and operational continuity. Eagle TG is dedicated to delivering high-caliber, integrated IT solutions, thoughtfully aligned with the dynamic needs of our diverse clientele.

PAST PERFORMANCE

Project: **Transportation Enhanced Access Management Service (TEAMS)**
Customer: US Army Transportation (ARTRANS)
Date: 09/2019 – 03/2024
Contract Value: $3.54M
Description: The TEAMS Middle Product Suite (MPS) contract provides a comprehensive Identity and Access Management solution. Eagle TG provides managed support for the Single Sign-On (SSO) authentication for over 700K transportation users, developing TEAMS MPS from the legacy system to support more than 100 applications with customized workflows. We provide expert services in application development, cloud infrastructure management, and comprehensive Tier 2 and Tier 3 support to the platform. The platform enhances security for various applications, allowing individual customization during the onboarding process, managing 265 distinct claims, and offering flexible options for authentication methods.

Project: **National Background Investigation System (NBIS) Security and Infrastructure Development**
Customer: Defense Information Systems Agency (DISA)
Date: 07/2017 – 06/2019
Contract Value: $3.42M
Description: We Eagle TG was the prime contractor for DISA's NBIS which included developing a secure, cloud-based infrastructure to enhance background investigation processes. This project involved agile design and deployment of a secure architecture on AWS GovCloud, integrating advanced authentication and DevOps processes for rapid capability deployment. The effort culminated in a fully operational production environment within 10 months, showcasing our ability to deliver comprehensive IT solutions that meet stringent security requirements and supported critical federal operations efficiently.

Project: **Personnel Classification & Selection Method (PCSM)**
Customer: Department of US Air Force (USAF)
Date: 10/2019 – 09/2024
Contract Value: $4.11M
Description: The Test of Basic Aviation Skills (TBAS) is designed to evaluate cognitive multitasking and psychomotor capabilities, which are key indicators of a candidate's potential success in Air Force pilot programs, including those for Remotely Piloted Aircraft (RPA). Eagle TG provides software development, database, systems management, and comprehensive Tier 1-3 support and maintenance for equipment across over 100 locations. The TBAS outcomes, combined with a candidate's scores from the Air Force Officer Qualifying Test (AFOQT) and Federal Aviation Administration certified flying hours, contribute to determining a PCSM score.

EAGLE TECHNOLOGY GROUP

UEI: MBZ8E2DEZTM9 CAGE : 6R8B4

Eagle TG is a tribally owned Small Disadvantaged Business (SDB) that excels in providing information technology and management consulting services. Dedicated to developing, deploying, and maintaining solutions that are secure, reliable, sustainable, and cost-effective, the company boasts a team experienced in supporting diverse programs for both federal agencies and private commercial enterprises, ensuring high quality, efficient services tailored to meet the unique needs of each client.

WHY TRIBAL?

Contracting with a Small Business Administration (SBA) recognized tribally owned SDB offers unique advantages to federal customers. By choosing to do business with us, agencies benefit from flexible and rapid procurement processes due to special federal contracting provisions that enable a more efficient path to high-quality, cost-effective solutions, while also fostering economic growth within historically underserved communities.
