NAICS: 541330, 541519

FUNCTIONAL AREAS

Program Management Support Services

This functional area consists of applying the business, financial management, and technical disciplines required to support planning, organizing, staffing, controlling, leading team efforts, and managing programs that place a capable and supportable system in the hands of the warfighter. Services include:

- ✓ Financial Analysis and Budget Support
- ✓ Quality Assurance Support
- ✓ Functional and Direct Programmatic Administrative Support
- ✓ Professional Development and Training Support
- ✓ Analytical and Organizational Assessment Support
- ✓ Database Administration
- ✓ Public Affairs and Multimedia Support
- ✓ Logistics Support
- ✓ Configuration Management
- ✓ Information System Development, Information Assurance, and Information Technology
- ✓ Computer Systems Analysts

Engineering Support Services

This functional area consists of supporting the application of engineering disciplines to support the research and development of new and existing Naval capabilities and systems; development of significant alterations to existing systems; integration and interface of existing equipment or software into different applications or platforms to support the warfighter; and evaluation of foreign or non-developmental systems, equipment, and technologies. Services include:

- ✓ Engineering, System Engineering, and Safety and Process Engineering
- ✓ Software Engineering, Development, Programming, and Network
- ✓ In-Service Engineering, Fleet Introduction, Installation and Checkout and Provisioning
- ✓ Measurement Facilities, Range, and Instrumentation
- ✓ Interoperability, Test and Evaluation, Trials
- ✓ Research and Development Support
- ✓ Modeling, Simulation, Stimulation, and Analysis
- ✓ Prototyping, Pre-Production, Model-Making, and Fabrication
- ✓ System Design Documentation and Technical Data
- ✓ Reliability, Maintainability, and Availability
- ✓ Inactivation and Disposal
- ✓ Biochemical Engineering

WHY CHOOSE SEAPORT NxG?

Streamlined Procurement: The IDIQ structure ensures flexibility and efficiency in awarding task orders.

Comprehensive Coverage: Supports a broad spectrum of program management and engineering needs tailored to the DON's mission.

Cost Efficiency: With a zero-percent agency service fee, SeaPort NxG delivers exceptional value.

Wide Applicability: Available to all Navy Systems Commands and affiliated organizations, ensuring seamless integration with mission-critical operations.

Eagle TG, LLC is a Tribally Owned Small Disadvantaged Business (SDB) focused on delivering Information Technology and Management Consulting services and products. We assist our clients in developing, deploying, and maintaining secure, reliable, sustainable, and cost-effective solutions. Our team has experience supporting all sizes of programs for federal agencies and privately owned commercial enterprises.

CAPABILITIES

IT Operations & Maintenance
- ⇒ Systems Integration, Cloud Infrastructure, and Database Administration
- ⇒ Cybersecurity and Data Protection
- ⇒ Custom Software Development
- ⇒ Comprehensive Support Services

Cloud Engineering & Consulting
- ⇒ Cloud Architecture Design Services with AWS and Microsoft Azure
- ⇒ System Development and Infrastructure Management
- ⇒ Testing, Integration, and Automation via Continuous Improvement and Continuous Delivery

Telecommunications
- ⇒ Fiber Optic Installation (Indoor/Outdoor) and Low Voltage Copper Cabling
- ⇒ Wireless Network Design, Communications Services, and DAS Solutions
- ⇒ Concrete Coring Services

Cyber Security
- ⇒ RMF & NIST Information System Policies and Governance
- ⇒ Security Policy Implementation, Authentication, Firewall, Endpoint Security, and More

Software Engineering & Application Development
- ⇒ Database and Applications Development
- ⇒ Web and Mobile Application Development
- ⇒ Data Warehouse, Portals, and Dashboards Solutions
- ⇒ Automated Workflow Solutions

Enterprise Architecture, Design & Implementation
- ⇒ Custom Application Development and Agile Software Engineering
- ⇒ Database Design, Administration, and Cloud-based Solutions
- ⇒ Cybersecurity Integration in Software Development
- ⇒ System Modernization, Migration, and Infrastructure Management

Enterprise Architecture & Business System Modeling
- ⇒ Business Process Modeling and Systems Engineering
- ⇒ Data Management, Analytics, and Integration
- ⇒ Cybersecurity and Risk Management
